Chan Zuckerberg Initiative

Staff Product Designer
Aug 2022 – Present

- Led design on web platform from zero to 10k monthly active users to help biologists find, analyze, interpret, and share multi-dimensional biological data
- Facilitated over a hundred user interviews to understand user needs and evaluate designs

Senior Product Designer
Sep 2020 – July 2022

- Led over a dozen workshops with the team to develop our overall product strategy, prioritize features, and ideate solutions

The Browser Company

Designer Engineer
Jan–Feb 2024 · Contract

- Worked directly with the Head of Design to create a new color design system for the Arc Browser to improve consistency, accessibility, and dark mode design
- Built bridge between Swift and Leonardo.js framework with CoreJavaScript
- Created a SwiftUI app and prototyped the Arc interface to refine color system

Pear Therapeutics

Senior Product Designer
Jan 2019 – Aug 2020

- Led design on our flagship apps for iOS and Android end-to-end from foundational research, product strategy, and roadmapping to ideation, user testing, and delivery
- Increased engagement 38% and reduced complaints by 90% with a full redesign based on user feedback and dozens of user interviews

One Medical

Product Designer
Dec 2014 – Jun 2018

- Designed multiple features for web-based electronic health record product for internal users (doctors, admins, virtual care team) and our patient-focused mobile app
